..... Aug 7, 2021 Q: How to generate a link to the first matching element in a list in R? I am using the data.table library and looking for the optimal way to generate a link to the first matching element in a list. If the list has 10 elements, I am interested in the "links" as listed below: list1
c(Links_list[[match(1,indx)]] [1] "Link_1" R> c(Links_list[[match(2,indx)]] [1] "Link_2" R> c(Links_list[[match(3,indx)]] [1] "Link_4" R> c(Links_list[[match(4
