And they are NOT the page numbers you put in the document (or you had actually not counted the pages correctly). If you change the page layout (file menu) to 'Landscape' or 'Landscape - odd-page layout' or 'Custom Page Layout' (which can be done for any PDF-document) you can have the document shown with the page numbering. #include #include #include "windows.h" #include "synch.h" #include "thread.h" /* * Copyright (C) 2005-2014 Team XBMC
