System Requirements For Remote Control PC:

General: This mod requires the 2.1 update of the vanilla Fallout: New Vegas patch to install. For the best experience, the game needs to be run in the "XP" version of the game engine. Please make sure that you have a working save file with at least 1.06GB free on your hard drive. The mod should not mess up your save file, but it can destroy your current character if you use it with an incomplete save. The main menu of the mod should not conflict with the game's
