work online and offline
Whenever you intend to
begin working on a new task,
you can click on the 'Start'
button in the program's main
window. On occasion,
Working time manager will
also capture screenshots and

save them in a dedicated folder, in its installation directory, so your manager can verify your activity. The utility lets you ‘Pause’ when needed, as well as ‘Stop’ monitoring when you are done. Moreover, Working time manager supports

tracking ‘Offline Hours’, enabling you to input the amount of time you have spent on the job, along with an explanatory comment, if you think it is necessary. The application also comes with a ‘Statistics’ component that allows you to determine who

is online or offline, as well as view work records for ‘Offline Hours’. A report can be generated and saved to a preferred location, to TXT format. Feature-packed and intuitive Running an office requires lots of organized administration, and it is

important to monitor employees' activity and make sure they are working and don't get distracted. This is exactly what Working time manager does, as it gives you an opportunity to monitor their working time online and offline. A decent

program with attractive features Besides, the application also helps you to keep track of your own work, as well as to generate a report on it. As a bonus, the program offers a Statistics section, which allows you to monitor your employees or

yourself, identify which employee or team is the most productive and, possibly, eliminate the ones that have been idle for a while. Furthermore, the tool is highly intuitive and easy to use, even for beginners.

Pros: ● Easy to use ●

Minimalism and a clean
interface ● Lots of features
Cons: ● Some minor bugs
