It is enough if you report bugs for a certain version of Sisi

What's New In Sismics Reader?

The Sismics Reader for Windows is an easy-to-use news aggregator that will keep you abreast of the news of the world. You can create a custom list of news sites to check out, including online newspapers, business news, sports and entertainment sources, and much more. The RSS feed reader will get the latest news in one consolidated list. You can view news items in the News List, or have the full text view, which displays the headline and summary, right in your web browser. To make it even more convenient, Sismics Reader also has a news box, which comes in handy when you want to quickly access the latest news, while you are on the go. You can

create a news box for a category of news items, and the news box will display a thumbnail of that news item. If you click the news box, it will be opened in your default web browser. FEATURES: Simple, easy to use interface You can create and manage lists of feeds Create custom news boxes View news stories in a feed reader or the full text Share news stories Create your own Sismics Reader account Mark news items as favorites REQUIREMENTS: Windows Vista or Windows 7 (SP1 or later) IE 7 or later, Firefox 4 or later, Chrome 13 or later, Safari 4.0 or later 512MB RAM or more 1GB available space on your hard drive Download Sismics Reader Can I use a keyboard to display the virtual keyboard of a

device that has access to the Internet via cable or wireless? Can I use a keyboard to display the virtual keyboard of a device that has access to the Internet via cable or wireless? Find out how to display the virtual keyboard of a device that has access to the Internet using a keyboard on your computer or laptop. Note: This may not work for some devices, due to operating system limitations
