The very first incarnation of AutoCAD and the last to run on DOS/32-bit platforms. It was announced on December 12, 1982, with the release of AutoCAD 1.0 (33rd version) and was available in 32 and 64-bit DOS versions. AutoCAD for Windows and AutoCAD LT are the primary product of the Autodesk Professional product line. He was disturbed by the lack of visibility that occurred when people got off elevators. He was also frustrated by the repetitive design tasks that architects and civil engineers have to perform over and over. He was hoping for a way to automate this repetitive work. His idea was a prototype computer-a
