Without explicit permission they are to be used in a non-profit manner and for non-profit purposes only.Q: How do you add additional options to Mootools Select dropdown? I have a Mootools dropdown element that works fine, but I would like to add additional functionality, such as adding a selection to this. For example, I have this code to create the select element: var myselect = new Element("select", { id: "mselect", options: ["One", "Two", "Three"], 4bc0debe42
