----- Folder Background Changer is a free program that allows you to easily change the background of any folder on your computer. Browse through your available folders, right-click any of them and select "Set Folder Background" to bring up a small window with lots of useful information. When you have the background you want to apply, click the "Apply" button and the process will be started. On the way, your folder will be converted into a.bmp file which can be used as the new background for your folder. This folder background changer supports various types of shell folders, such as Desktop, Documents, Downloads, Music, Pictures and Videos. Also, Folder Background Changer can be started via a hot key, making it even more convenient. Possible next steps:

----- Use this program to change the background of all folders on your computer. Or: Try to preview the new background by opening the.bmp file, if there is one available. Moreover, Folder Background Changer allows you to easily save the new background in order to apply it later on. As you can see, this program was written with ease of use in mind. Therefore, you can also use it to quickly convert your files, if you don't want to mess with your computer backgrounds. When you want to give this software a try, you have two options: - Download and install the free version, by clicking on the button below. - Or, purchase the complete version for \$19.95, which is
