English Main - Compare the total number of cores in the Field/Reserve/Basket of any player. The player who has the total number of cores more, must send cores. The number of cores for the remaining players will be less than the player with more cores. To count the cores, use the GetImmunityCount () method.Field/Reserve/Basket.If the player cannot determine whether to send cores or not, he can send a backup.The backup will be used when the player's stock of cores no longer exists.The player will not be able to send the core if there is no backup for it.Cores must be sent when moving from the Field to the Reserve / Basket.Field.
