

SomarSoft DumpReg Download

SomarSoft DumpReg Crack+ With Product Key Free [Updated] 2022

The modern world of a PC user is full of software applications. Some of those applications help you to deal with your everyday needs while others are more like a curse, or in worst cases a virus or worm. Some people call them trial and error applications, but in fact many of them are very dangerous and have a strong risk of leaving your PC in a state that will make you re-install the operating system. Is this what you want to happen? SomarSoft DumpReg For Windows 10 Crack is a free utility that will eliminate this scenario. This tool will help you find the following registry keys and values in the currently active application database: - Run keys: these keys contain paths to the specific program installation directories - User specific settings - System wide registry settings - HKEY_CURRENT_USER and HKEY_LOCAL_MACHINE settings - HKEY_USERS registry settings - The Microsoft registry settings - This tool will show you the results and let you compare with the results of this time ago. It can also help you delete these settings or keep them for reference later. SomarSoft DumpReg Product Key Features: 1. Interface. Dump the currently active application database. The dump includes the following registry keys: 2. Search Criteria. Search based on a string value. 3. Reverse Order. Sort the results by the modified date and/or by the access date. 4. Extra Options. Advanced options. If you require more functionality just specify the value of the option in the right box and check it. 5. Reporting. The program will show all the found keys and values. 6. Delete the found keys from the registry. 7. Export to a text file. The text file will contain the current application registry keys and values. 8. Display keys and values. 9. Display modification date and access date. 10. Report the values by location. 11. Backup Registry. Backup the current registry key data. 12. Support (the program runs on Windows XP, Vista, 7 and Windows 8).
