What's New In RAW Plug-in For Adobe (PLAD-RW1)?

The plugin, plug-in for Adobe (PLAD-RW1) is a universal RAW file format and Adobe CS6 plug-in to transfer raw files from Sony MFX cameras to the newest version of Adobe® Premiere Pro® CS6 and Adobe® Creative Suite® 6. Read more about RAW Plug-in for Adobe (PLAD-RW1) here: For questions about RAW Plug-in for Adobe (PLAD-RW1), or any other RAW File Format or Adobe® CS6 Plug-in, please visit: Created and marketed by Head Shop Productions

The new Canon EOS-1D Mark IV body is the successor of the already famous and successful Canon 1D Mark III model. As such, it is the first in the new line of Canon EOS-1 series. The 1D Mark IV model improves on its predecessor from every aspect. It is a game changer in terms of DSLR cameras. The new model is designed in a compact and elegant body but powerful and flexible at the same time. Canon EOS-1D Mark IV is largely covered by the intelligent electronic viewfinder that has been refined with a wider and more detailed display. However, it is not the only change to the new camera. It is equipped with a new dual screen with touch capability and an advanced processing unit. There are also many new opportunities for adjusting the camera settings as well as improving the image quality. The body is equipped with a 95-point-cross-type AF system with 61 cross-type sensors. The EOS-1D Mark IV is more than a camera. It is a state-of-the-art high-performance tool. In the first place, the EOS-1D Mark IV has been designed for the professionals. The design and build are related to the photographer's professional approach to work. Within the camera body, there are many features that differentiate the EOS-1D Mark IV model from other camera models. They are as follows: In the viewfinder, the display displays a resolution of 4.9 million dots

The new model is a compact and elegant body but powerful and flexible at the same time New pixels and sensor deliver ultra-sharp images
