The paper reviews the current knowledge on the relationship of DNA aneuploidy or DNA polyploidy and malignancy of human tissues. The possible consequences of aneuploidy are analyzed with a special reference to the cancer cell. Aneuploidy is not a necessary cause for malignancy, however, when aneuploidy appears in a tissue it is associated with a high malignancy grade. DNA polyploidy is the most frequently observed condition in cancer cells, this condition is correlated with malignancy in a certain degree. Because there is a certain relationship between DNA ploidy and the proliferative activity of a tissue, DNA analysis of exfoliative, fine-needle or imprint cytology material may be useful in the diagnosis of cancer. Description The first act of the follow-up to the surprise album that broke the boundaries and opened new paths for his music with his debut Quintet (This Is the Moment), the first recording by the Tokyo piano player Makoto Ozone that features on this are the previously unreleased "Fantastic" and "Sunflower". Only these two compositions went on to be re-recorded as well as "Good Day" and "Love and Be Natural" for the re-release of the quintet's debut single were re-recorded for the new release. All told the performances on this
