### Contents Create new High-Quality Images

This tutorial explains how to create new high-quality images using Photoshop Elements. In this guide, we use a RAW image (Photoshop Camera RAW) to create a high-quality image. Open Photoshop Elements Select Create new files from the Menu bar at the top of the screen. Select the RAW Camera Raw image, as shown below. Open the File Properties dialog to enable Camera Raw. Press Enter. Select the Photoshop Camera Raw Preset - Adobe Camera Raw 6 to apply. Click on OK. Open the File Properties dialog to export the image. In this case, we save the file in the JPEG file type to retain the details of the RAW image. In JPEGs, you can edit the image later, but the details of the RAW image will be lost. Click on the Export button. Select the JPEG file type and click on OK. The RAW image has been saved in your computer.
