Supports expressions: =, , =, or Q: Joining array of objects to one object in javascript var objects = [{ name: 'Foo', isFlagged: false, items: ['item1', 'item2'] }, { name: 'Bar', isFlagged: true, items: ['item3', 'item4'] }] I have an array of objects. I want to combine all of the objects into one object which has the name property. This output should be as follows: var

System Requirements:

Windows Mac Linux 8.0GB free space Gamer I'm a gamer and I like to play it with headphones. In order to appreciate the soundtrack and help me focus on what's happening on the screen, they have to be good quality ones. But, like every headphone, they get damaged over time, and with my new job, I got a new bunch of headphones. I'm a gamer and I like to play it with headphones. In order to appreciate the soundtrack and help me focus on what's happening on the screen
