Roblox is an online game platform and game creation system developed by Roblox Corporation that allows users to program games and play games created by other users. Created by David Baszucki and Erik Cassel in 2004 and released in 2006, the platform hosts user-created games of multiple genres coded in the programming language Lua. For most of Roblox's history, it was relatively small, both as a platform and a company. Roblox began to grow rapidly in the second half of the 2010s, and this growth has been accelerated by the COVID-19 pandemic. Roblox is free to play, with in-game purchases available through a virtual currency called Robux. As of August 2020, Roblox had over 164 million monthly active users, including more than half of all American children under 16.

Although Roblox has received generally positive reviews from critics, it has faced criticism for its moderation, microtransactions, and exploitative practices directed toward children. Roblox Themes: Some Roblox themes have a layout that is divided into 3 sections, and each section uses a different text color. The "clothing" section uses the color #1ABA5A, the "clothing and accessories" section uses color #1ABA5A, and the "items" section uses color #1ABA5A. The theme is designed to be used in the Roblox launcher. At launch, the only filter available for themes is "Clothing." You can change this through the Theme Settings tab in the launcher by pressing the :lock_button: button. Note: This is the case in YouTube or HTML5 players, this is not the case in html5 player in Android or iOS.

Themes are available in the Store for Play! platforms. Click here to visit the Theme Store. Roblox Themes Related Articles Related Videos Roblox Merchandise Product Category After the player completes a Roblox game or levels, the player can access their Roblox profile to upload their game to the Roblox platform. Once the player has uploaded their game, they can start playing with their friends, and other Roblox users can learn how to code games and create their own Roblox games. As the player plays the game, users can visit their friends' game pages, comment on the game, send
